	Laura Croas	Sue Graef	

COVID 19. THE ART OF ISOLATION/SURVEY 2 covers artists' creations during the global ongoing crisis due to COVID 19. Our civilization has entered a new reality, and humans are faced with an ongoing set of life challenges generating another societal paradigm interconnected to mortality, loss, death, and rebirth.

Selected artists are from Belgium, France, Germany, Italy, Spain, South Africa, Israel, UK, Bahamas, Mexico, Argentina, Brazil, Venezuela, Panama, Puerto Rico, Colombia, Chile, and the USA (Florida, California, Utah, New York, Connecticut, Texas, New Jersey) among others. The artists' proposals fall into different aesthetic subcategories, reflecting the intensity of the subject in different expressions. From critical human representations, the self and the virus, to splashes of subjective realities, dislocated landscapes of world ecosystems, and nonobjective representations, serve as visual mixtures of the creation of the moment.
